

NEW WEBSITE !

What's changed?

For those of you familiar with using the previous icons:

....apologies but we have chosen to replace these with a side navigation bar:

– just click the button you want.

The previous Reports page has been replaced by links on the new theme pages – please see below.

Other options from before are along the side or bottom of the page.

Please note that the top banner relates to the ESP and its website, so that by clicking Home you will be taken to the ESP home page.

What's new?

Functionally, the only new parts to the website are the Theme pages and a Help page. The Theme pages have been designed to highlight information and provide selected links to documents. The themes align with the ESP thematic action groups and the main folders in Facts & Stats now follow the themes.

Newsletter

Fuller information about the new website will be in our relaunch newsletter – watch the Latest News box on the home page for release.
